[^] **YoY Change** - Muted growth in traffic (specifically domestic traffic in May'25-Sep'25) & YTD FY26 attributable to temporary disruptions in flight operations caused by changed airspace conditions amid series of continuing geopolitical events and Runway 10/28 upgradation at Delhi Airport (Enhanced Runway has re-opened on 16 Sep'25). Airport traffic in India being impacted due to systemic standstill seen globally amid ongoing geopolitical conflict in the Middle East since 28 Feb'26

Medan airport domestic traffic has been affected by supply-side constraints as a portion of the aircraft fleet remains grounded due to maintenance-related issues - a challenge currently impacting the broader Indonesian aviation market
